#### Description:

Eco-chic before it was mainstream, Origin & Ash has been transforming ho-hum interiors with its unique furniture and accessories for the past decade. One of a kind may be ubiquitous these days, but it takes on a new meaning here. Along with handmade furniture crafted with reclaimed wood and hardware by co-owner T.R. Risk, you'll discover a whole new source for original artwork and frames (made out of antique lumber), not to mention a fabulous collection of vintage handbags and jewelry, handmade and vintage lighting, and a surprising selection of modern accessories and hand-blown glass objects.

2nd Location: 510 E. Barnard St., Unit 7-8, West Chester, Pennsylvania
